

# CAPITAL IMPROVEMENTS

GT Signature understands the responsibility city, towns and communities take on when deciding how to invest money on capital improvement projects (CIP). Once the decision has been made on where you want to invest your dollars a contractor needs to be hired that understands that the completed project needs to meet the needs, budget and scheduling of the group represented. At GT Signature, not only, will we complete your project to meet the above requirements, we will provide an accounting of where and how the money was spent as well as a summary of the work completed and any warranties associated with that work in a comprehensive report. We know that you have to answer to many people and we want to give you the tools to do so.
